HOW ARE YOU TAKING NOTES?

WRITING GOOD NOTES MAKES A DIFFERENCE.
USE THESE TIPS TO MAKE STUDYING EASIER!

Decide if you will **handwrite**
or **type** your notes.

Print out your PowerPoint and take notes
during your lecture next to each slide.

To make them stick out, use different color
pens and highlighters.

Add questions in the margins to ask your
professor or research after class.

Utilize other resources and rewrite your notes!
The more you see and hear the info, the better
it sticks.

Keep them organized! Keep your notes
for each class separated.
